Do not touch waste batteries, electricals, chemicals or broken items.

Recycle today. A cleaner tomorrow.

Answers & grown-up notes

Keep this page for checking the activities.

1. Picture matches

Paper

C. Paper and card

Empty drinks can

D. Metal packaging

Old laptop

A. Electrical recycling

Battery

B. Batteries

2. Unjumble answers

REPAP = PAPER

TTERYBA = BATTERY

CLEYCER = RECYCLE

For parents, teachers and group leaders

Use the pictures for this activity. For real recycling, check your local collection rules. Batteries and electrical items need separate recycling from everyday packaging. Adults should manage these items.

Talk together: which electrical things can you spot at home or school? Keep the discussion on the sheet - children should not collect or handle waste.

Recycle today. A cleaner tomorrow.
